

Fei Wei Cheungkong scholar Professor, he obtained his PhD in chemical engineering from China University of Petroleum in 1990. After a postdoctoral fellowship at Tsinghua University (China), he was appointed an associate professor in 1992 and professor of chemical engineering of Tsinghua University (China) in 1996. His scientific interests are technological applications of chemical reaction engineering, multiphase flow, carbon nano materials, and sustainable energy. He has designed and successfully running over 30 industrial fluidized bed reactors, and authored three books and over 500 refereed publications with more than 17000 citations.
